## III. Overview

1. Overview

The edurosECDIS JAN-9201, JAN-7201 is a JRC ECDIS e-learning module for JRC ECDIS models, **JAN-9201 and JAN-7201.**.

It is comprised of CBT(Computer based Training) & WBT(Web Based Training) together with web-based LCMS (Learning and Contents Management System) and is intended to educate and train all bridge officers on vessels which have JRC ECDIS as the primary means of navigation by introducing the officers how to learn on the proper operational use of JRC ECDIS both at the ordinary and under extreme conditions
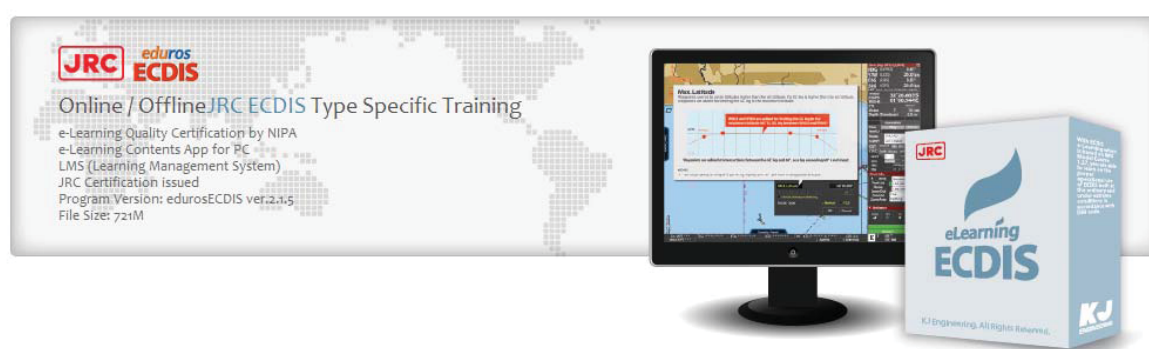

- – Simple and Flexible Solutions 24/7/365
- – CBT (Computer Based Training) & WBT (Web Based Training)
- – CBT lessons, Practice Guide and Self-Practice
- – Immediate Results and Feedback
- – Supplementary learning Packages – eBook
- – Multiplatform Solutions – PC, Mac, IOS, Android and Tablets
- – Automatic Update Features
- – Accessible to your Certificate on the Home Site for authenticity
- – Online LCMS (Learning Contents Management System) for admin

2. Approval

JRC approved type specific training modules for JRC ECDIS Model "**JAN-2000, JAN-701, JAN-701B, JAN-901M, JAN-901B, and JAN-9201.** "

3. Learning Objectives

A trainee successfully completing this course will be able to operate the equipment and use the navigational functions of the JRC ECDIS,

The trainee will be able to use the specified functions related to the following areas

- ● JRC ECDIS system configuration and initial operation
- ● Familiarization with available function

- Familiarization with the menu structure
- Operation menu on the JRC ECDIS
- Display Set-up
- Setting of Safety Values
- Recognition of the alarms and malfunction indicators and action to be taken
- Route planning
- Route monitoring
- Setting of ECDIS
- Changing over to backup system
- Load Charts and License
- Updating Software

4. Entry Standards

The course has been designed for officers in charge of a navigational watch and for experienced nautical officers and other persons with navigational responsibilities who have completed ECDIS generic training course of IMO Model Course 1.27.

5. Target Group

Nautical Officers, Captains, Shore-based nautical staff who are operating a JRC ECDIS today or planning to operate one in the future

6. Objective

The overall objective is to enhance safety of navigation by providing the knowledge and skills necessary to fully utilize the features of JRC ECDIS.

7. Legal Foundation

- Manila Amendments to the STCW Code
- ISM Code
- Port State Control

8. Language

- English / Koean / Japanese

9. Online Supporting tools

Web based My Learning Status Monitoring page is prepared for trainees to monitor their learning progress in an online environment whenever necessary

The Web enhanced LCMS(Learning Contents Management System) is provided to administrators who can handle all aspects of the learning process for administration, documentation, tracking and reporting of e-learning courses by incorporating the "synchronous or asynchronous Internet communication technology" into the system which serves to "facilitate a simultaneous independent and collaborative learning experience

10. Type of Users

There are five types of users in three tiers, System administrator, Sub-Admin tier, "Trainer and Operator" and User tier, Paid or Free User, They are classified depending on the services, different authorities and roles they are entitled to,
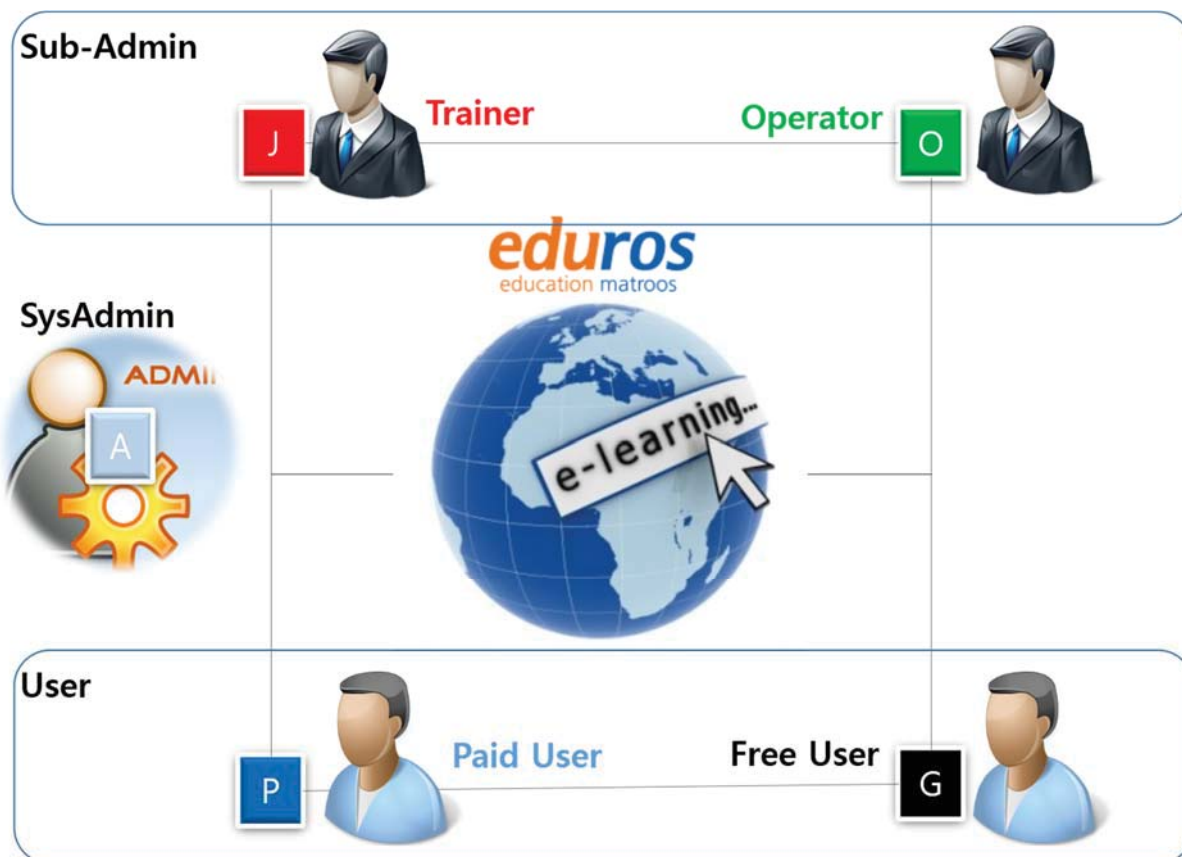

| G | General user is a free account who is allowed to gain access to the limited lessons for trials only |

| P | Premium user is a Paid account who could get access to all services. |

| J | Trainer is authorized by JRC as a JRC ECDIS Type Specific Trainer on behalf of JRC, who could set up a class and course for users, monitor their leaning process throughout the courses and verify the candidate who apply for the verification at the time of the interview |

| O | Operator is a group manager who could can add group member to the group, supervise the user's leaning process throughout the courses, set up an interview date or upload a G/Letter for his group member. |

| A | Administrator, or sysadmin, is a person who is responsible for the upkeep, configuration, and reliable operation of edurosECDIS JAN-9201, JAN-7201 systems |

IV. Course Procedure

1. Course Outline

The edurosECDIS JAN-9201, JAN-7201 is a JRC ECDIS Type Specific e-learning Course on JRC ECDIS JAN-9201 and JAN-7201 which is in compliance with Manila Amendments to the STCW which require that the seafarers take type-specific familiarization training for the JRC ECDIS system installed on-board the vessel

This course is intended to educate and train all bridge officers on vessels which have JRC ECDIS as the primary means of navigation by introducing the officers how to learn on the proper operational use of JRC ECDIS both at the ordinary and under extreme conditions

Here is an introduction to the course which has eight(8) following Steps in three(3) Language

1. Prerequisite : Completed the ECDIS Generic Course
2. Application : ID and PW
3. Program Installation : Download, CD/DVD. USB
4. Self-Study : Computer Based Training (100%)
5. Self-Practice : Practical Test
6. Test and Test Evaluation : Written Test and Auto-Evaluation (More than 70%)
7. Verification : Guarantee Letter or Interview
8. Certification : Issued by a qualified trainer
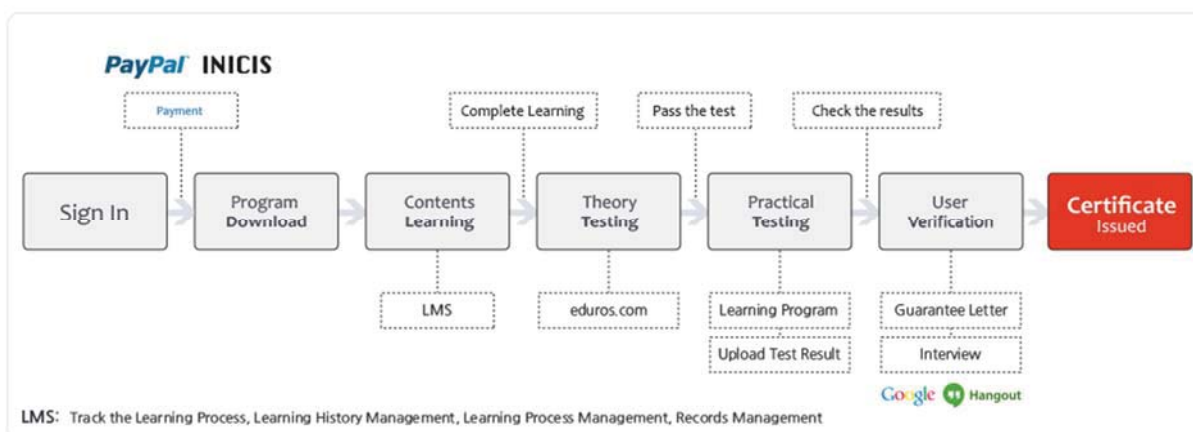

2. Sign Up with Group code

if you are the first time user for edurosECDIS, you will need to create an account for the service. Online registration is usually accomplished with the eduros site (www.eduros.com) while Offline is done via the phone, fax and email. You can use any email address as the user name for the service. If you do not specify any group at the Sign up phase, The eudros group is assigned automatically as a default for the overall management of your course.

- Eduros (default code, 1827)
- Shipowner (TBD)
- School (TBD)
- JRC TST Agent (TBD)
- JRC (2711)

You must start courses from the date when you're required to register

3. Log In

You can log in to the eduros site (www.eduros.com) with your email address and password you registered.

4. Payment

There are two types of payment available after the registration. "Money transfer by Invoice or credit card payment by paypal"
If you already have a PayPal account, enter your password and click Log In the paypal site. (https://www.paypal.com), Otherwise, you can enter your personal information in order to make a payment to paypal without a paypal account.

① **Single User**

The total fee per a trainee is US $400, including CBT and Certification

② Bulk Orders for ship-owners or managers

Bulk Orders of fifty (50) licenses or more for organizations and businesses can be purchased by contacting the company by e-mail (sales@kjeng.kr) or phone at +82 (51) 404-5650 for more information.

③ Students and Not-For-Profit Discounts

Discounts for students and not-for-profit organizations are available by e-mail (sales@kjeng.kr) or phone at +82 (51) 404-5650 for more information.

④ Distribution Partner Discounts

A number of eLearning Distribution Partners are entitled to be offered discounted licenses for their members only, please contact the company by e-mail (sales@kjeng.kr) or phone at +82 (51) 404-5650 for more information

5. Download

Once the payment is completed, it is redirected towards the page for online user where you can download the programs which you bought and install them on your PC, or you can also download the

program in 'My Learning' page afterwards. In case of offline users, the programs can be delivered on CD-ROM or USB, where a trainee can access to all courses without online connections.

6. Installation

Each user may install and use one copy of the software product on up to three computers for its sole use provided that only one computer is in use at any given time. This includes home and work, or a laptop and desktop

7. CBT (Computer Based Training)

① CBT lessons - The CBT lessons would be covered in following 11 sections including self-practices and the final written test for total running time in 04h 41m 47s, where the CBT takes the trainees through each courses and practices. However, the actual course will statistically take more twice than that, and also it depends much on the trainee's knowledge and experience in the JRC ECDIS

No	Description	Duration (MM:SS)
①	Familiarization with available functions Description of the System Configuration Description of difference points for each models Basic Operations	31 : 20
②	Familiarization with the menu structure Familiarization with the menu structure	01 : 59
③	Display Set Up Description of the own information and sub information Description of the navigation tools	33 : 50
	Practical Guide and Exercise on Chapter 1~3	04 : 19
④	Setting of Safety Values Setting of ECDIS	39 : 14
	Practical Guide and Exercise on Chapter 4	20 : 13
⑤	Recognition of alarms and malfunction indicators and the actions to be taken Description of the Alert Notification	04 : 10
⑥	Route Planning Route Planning	16 : 54
	Practical Guide and Exercise on Chapter 5~6	26 : 25
⑦	Route Monitoring Route Monitoring	05 : 39
	Practical Guide and Exercise on Chapter 7	06 : 08
⑧	Changing Over to backup Systems Changing Over to backup Systems	02 : 53
⑨	Loading Charts and Licenses Charts importing and updating	22 : 17
	Practical Guide and Exercise on Chapter 8~9	02 : 41
⑩	Updating of the software Confirmation and Updating of the software	03 : 45
⑪	Test	60 : 00
	Total Hours	04 : 41 : 47

- Ten (10) CBT lessons

- Five (5) Practical Guides and Tests
- The Final Test,

② Practical Guide & Test - Evaluation comes with two practical modes, practical guide and test and it is to be carried out in five (5) stages in between the courses and the test. Upon completion of the first three lessons, you can go into this mode for the first (1) evaluation. The purpose of guide is to provide a basic line again to the trainees over the lessons they have learned, and the purpose of test is to see what they actually understand and to meet the JRC TST standards for those lessons they have learned.
if the trainees failed the test three times in a row, the CBT automatically guide them to all the contents directly associated with the tests, after completing the lessons,   they are given another chances for the test again. if failed another three more chances again, they are brought back into where they started for the same lessons again & again until they fully understand such subjects and pass the test.

③ The Final Test – After completing the above ten (10) courses and five (5) practical tests. You come at the final written test. if you make 70% or more scores within three chances, you are entitled to go to the next stage for ID verification, Otherwise you must re-take the test with another three chances after paying re-exam fee of US $ 150

8. Verification

When you pass the test, you will reach the final step to ensure the identity of yourself. There are two types of verification process available "Interview or Guarantee Letter, any of which can be selected depend on your situations

9. Certification

If your identity is finally confirmed at the verification stage above, The Certificate will be issued automatically by e-mail to your company within 24 hours after the verification.

10. Learning Evaluation

A series of questions in a training evaluation is distributed to you as a way to evaluate the given course after completions, It gives the learners the opportunity to provide feedback to us so than we can analyse and interpret all the valuable information for quality of instruction as well as accurate measures of teaching effectiveness

eduros ECDIS	**V. CBT vs WBT**

1. Computer Based Training (CBT)

A eduros CBT is a new-age way of e-learning in a form of blended learning for seafarers at sea, which is based on asynchronous offline messaging technology and a new synchronization algorithm that allows for a user to send a message to someone who is offline and updates the file when the offline user comes back online

The updates sync to the local drive of computers and to your cloud account in the Server at the same time; thus you can instantly access the latest version of your files locally, via web browser, and using mobile apps too.

- reduces the time and bandwidth needed to identify differences between the local cache and the server
- determines which parts of a file in the local cache have changed, and then updates only those parts of the file on the server.

The CBT program is installed on the PC by an Online (Download) or Offline process (DVD/USB), and most of training is executed on your own between the online and offline mode depending on the network situations where you are .

 At the completion of the course, trainees must take the final written test. Then they upload the test result files on the server or email them to their trainer for evaluations.

According to the result, The Certificate will be issued automatically by e-mail to your company or to you

Advantages of CBT

- The CBT do not suffer from Network limitations
- It offers a stimulating environment where learners can learn at his own pace
  Learners can take their course at their
- convenience without any expense of time or travel.
  Learners automatically get any features upgrades to the CBT so that they can keep abreast with
- ever changing technology on the JRC ECDIS through the CBT

- .

2. Web Based Training (WBT)

This is a subset of CBTs in which the material is made accessible on the Internet by applying Web technologies. Typically, The WBT is also referred to as "online courses" and "Web-based Training"

Trainee learns the course using web browser to log in the training application consisting of training material, evaluation tool and learning management function, which is placed on the web server (Training application will not be installed in the PC of each trainee.)
At the completion of the course, trainee must take an assessment test using tool of the training application. Trainee submits a successful result of the test with a guarantee letter which the administrator of the trainee prepares to JRC by e-mail or on the web.
If it satisfies a requirement, JRC issues a certificate (hard copy) to the trainee

Advantages of WBT

- The WBT can be delivered anywhere in the world where the Internet is available
- Multi-platform capabilities are possible, such as Windows, Mac, UNIX, PDA, phone, among others
- Content can be easily updated
- Access can be controlled
- It Can be linked with other training systems

3. Course Comparison

Key Process \ Type		CBT	WBT
Registration		On or Offline	Online
Payment		T/T or Credit card	T/T or Credit card
Program Delivery		Download or USB	Not Necessary

8. Form (H) : Training Evaluation Survey

Thank you for attending edurosECDIS training course. We'd like to hear your impression of the various aspects of the training, so that we can continually improve the experience for all trainees.

Course Name   Date

---

① Overall how would you rate the training courses?

          Excellent   Good   Fair   Poor

② Please rate the following aspects of the eduros elearning contents ?

- Did this course meet your expectation ?

          Excellent   Good   Fair   Poor

- Were the contents appropriate for JRC ECDIS TST ?

          Excellent   Good   Fair   Poor

- How do you think of the presentation (Graphic, Animation, Audio..)?

          Excellent   Good   Fair   Poor

③ Please rate the following aspects of the elearning system ?

Registration	Excellent	Good	Fair	Poor
Course Timing	Excellent	Good	Fair	Poor
Speed	Excellent	Good	Fair	Poor
Cost & Pricing	Excellent	Good	Fair	Poor

④ Do you consider the eLearning course to be a good tool for training?

          Excellent   Good   Fair   Poor

⑤ Did you encounter any technical problem with the course ?

          Yes   (Please Specify it if yes)   No

⑥ Was any help provided when needed ?

          Excellent   Good   Fair   Poor

⑦ Based on your experience, How likely are you attend to similar courses in the future ?

          Very Likely   Somewhat   Not

⑧ What was your favorite part of the training?

⑨ What was your least favorite part of the training?

⑩ Any other suggestions or comments to help us improve future training classes?

IX.   Terms & Conditions

This web site is owned and operated by KJ engineering Co.,Ltd who offers e-learning software platform for JRC ECDIS TST in order to familiarize users with JRC ECDIS cost-effectively and time-efficiently over the internet. By entering or using this site, you accept the following terms and conditions.

1. General

① The website under www.eduros.com (Website) and the services available on and through the Website (Services) are being offered to you by KJ Engineering Co., Ltd (Company), located in Pusan, Republic of Korea.

② These Eduros website Terms and Conditions of Use (Terms) are our terms of service that govern our relationship with users and others who interact with or use the Website. Please read these Terms carefully before using the Website.

③ By using or accessing the Website, you agree to these Terms during the registration process, you acknowledge that you have read and agreed to be bound by and comply with these Terms. You also acknowledge that these Terms constitute a binding agreement between you and company for good consideration (our provision of the Website and the Services to you in exchange for the rights you grant to us in accordance with these Terms). If you do not agree to be bound by these Terms, please do not access or use the Website.

④ We may amend the Terms from time to time in our sole discretion. Amendments will be effective immediately on publication on the Website. Your continued use of the Website

⑤ You agree that any matter or dispute arising out of or in connection with these Terms or the Website (including any content posted on the Website) will be governed by the laws of Republic of Korea. You consent to the exclusive jurisdiction and venue of the courts of Pusan, Republic of Korea to determine any such dispute

2. Registration and account security

⑥ In order to access some of the functionality of and information contained on this Website including the courses, you will need to become a registered user by setting up a personal account on the Website (Personal Account).

⑦ 2.2 To become a registered user and create a Personal Account, you must complete your registration details in the manner described on the Website. The registration process will require you to provide us with your full name, email address and a password to access your Personal Account.

⑧ 2.3 You must not create a Personal Account for anyone other than yourself without permission. You must provide complete, current and accurate information to us during the registration process. By submitting a registration, you represent and warrant to us that the

information that you are providing to us is complete, current and accurate. You must keep your personal and contact information accurate and up-to-date.

⑨ 2.4 Maintaining the security of your Personal Account is important to us. You agree that you will maintain the confidentiality of your Personal Account (including password), and you will not allow or authorize any other person to use your Personal Account.

⑩ 2.5 We reserve the right to terminate your registration at any time if we believe in our sole discretion that you have breached any of these Terms.

3. Revocation

① You can revoke in text form (e.g. letter, fax, e-mail) your contractual acceptance to the Services within 14 days ("Revocation Period") without providing any reason. The Revocation Period begins on receipt of these instructions in text form, but not before conclusion of the Contract, and not before KJ Engineering has fulfilled its obligations: The revocation notice shall be addressed to system administrator.

4. Courses

① Certain Courses offered through the Website may have additional eligibility requirements (including Generic Certificate requirements), as specified on the Website. You agree that you will not participate (or continue to participate) in an eduros course unless you satisfy the eligibility requirements for that course. By participating in an eduros course, you represent and warrant to us that you satisfy the eligibility requirements for that course.

② Subject to your satisfactory completion of an eduros Course, you may be awarded a statement acknowledging your completion of the eduros Course (Vendors' Certificate for each course). The content of a Certificate of Achievement will be determined by us, in our sole discretion, and may change from time to time and from course to course.

③ We reserve the right to cancel, suspend, reschedule or modify the content of any eduros Course at any time (including during the course) in our sole discretion.

5. User Declarations

① 4.1 The following section is provided for a clear understanding of the expectations we expect you to meet when using the Website and participating in eduros Courses. You are expected to comply with all requirements set out in this section for the duration of your use of the Website. If we consider that you are not complying with these requirements, we may terminate your registration.

② You agree that you will only access and use the Website in accordance with all applicable laws.

③ You agree that you must not use the Website in a manner that it may result in damage to the Website or any property or equipment of ours or our contractors or agents (including by uploading viruses or other harmful code);

④ You must not use the Websites or the eduros Courses (or any material we provide to you in connection with an eduros Course) for commercial purposes, financial gain or other gain.

⑤ You must not collect the content of other users of the Website, or access the Website using automated means.

⑥ You must not impersonate any person (including a staff member of us) or hold yourself out as having authority to act on behalf of us.

6. Intellectual Property Rights

① Before sharing any content or information on the Website, please ensure that you have the right to do so. You must not use or reproduce any material which is protected by intellectual property rights (including software, photographs and videos), if to do so would infringe the intellectual property rights of the owner or any other person with intellectual property rights in the materials.

② Unless we notify you otherwise in writing, you are not authorized to use any of our trade marks, or the trade marks of the Website.

③ We do not accept responsibility for materials linked to or otherwise accessible through the Website. You acknowledge that you use links on the Website at your own risk.

④ All contents and other materials available on the Website are owned by or licensed to the company and are protected by Korean intellectual property rights. You agree to abide by all copyright notices and other restrictions contained in the Website. We grant you a non-exclusive, non-transferable license to access and use the Websites for personal, educational and non-commercial use as permitted by these Terms.

7. Privacy Policy

① Your privacy is very important to the company, These Terms must be read in conjunction with our Privacy Policy. We undertake to comply with the terms of our Privacy Policy.

② We are committed to ensuring that your privacy is protected. Should we ask you to provide certain information by which you can be identified when using this web site, you can be assured that it will only be used in accordance with this privacy statement.

③ We may collect the following information:

- Personal information including nationality and passport number
- Contact information including email address
- Demographic information such as postcode, preferences and interests
- Other information relevant to customer surveys/offers

④ In order to understand your needs and provide you with a better service, we require your information for:

- Internal record keeping
- Improving our products and services
- Occasional product news, special offers or other information which we think you may find interesting
- To contact you for market research purposes
- Customize the website according to your interests

⑤ We may collect IP information about your computer, including IP address, operating system and browser type for system administration. This is statistical data about our user's browsing actions and patterns, and also identifies the individual computer to restrict the number of accessing PC to our server.

⑥ You acknowledge and agree that personal information and sensitive information you submit to us on the Website will be handled by us in accordance with the Privacy Policy, applicable laws and the terms set out in this section.

⑦ By setting up a Personal Account, grant us an ongoing consent to promote and market our products and services and to make other offers to you (including by email). You acknowledge that this consent continues indefinitely until such time as you expressly withdraw it. If you do not wish us to contact you or you would like us to stop contacting you for promotional or marketing purposes, please contact us using the contact details set out in our Privacy Policy.

8. Disclaimers and limitations of liability

① The Website and the Services are provided on an 'as is' basis. You acknowledge and agree that any access to or use of the Website (including undertaking the eduros Courses) is at your own risk.

② We do not make any representations or warranties about the availability, functionality or performance of the Website or the Services or the accuracy, completeness or currency of any of the content or data accessible through the Website.

③ We are not responsible for the conduct, actions or information of any user of the Website or any other third party, and you release us from any liability or claim you may have against such persons.

9. Complaints, Questions and Comments

① 8.1 If you see something on the Website that you believe breaches these Terms, you should let us know by flagging the content. Please note that reporting content does not guarantee that it will be removed from the Website.

② 8.2 Complaints, Questions, comments and requests regarding the Website or the Services or any issue connected with them are welcomed and should be emailed at sales@kjeng.kr or posted at
